

Required Supplementary Information

Notes to Required Supplementary Information – Budgetary Reporting

Statutory/Budgetary Presentation

The various funds and programs within funds utilize a number of different budgetary control processes. Annual legislative appropriations and revenue estimates are provided for most “operating” funds. Note 2 of the basic financial statements identifies the annually budgeted operating funds.

The original executive budget and original legislative appropriations provide general purpose (unrestricted) revenue estimates in order to demonstrate compliance with constitutional provisions. Revenues restricted by law or outside grantors to a specific program are estimated at a level of detail consistent with controlling related expenditure accounts.

For programs financed from restricted revenues, spending authorization is generally contingent upon recognition of the related revenue. Reductions of spending authority occur if revenues fall short of estimates. If revenues exceed the estimate, supplemental appropriations are required before the additional resources can be spent.

The budgetary comparison schedule presented for the General Fund, the Budget Stabilization Fund, and the School Aid Fund presents both the original and final appropriated budgets for fiscal year 2008, as well as the actual resource inflows, outflows, and fund balance stated on the budgetary basis. The supplementary portion of this report includes a Combining Schedule of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual, by fund type, for non-major special revenue and permanent funds with annual budgets. Those schedules only include the final appropriated budget.

The original budget and related estimated revenues represent the spending authority enacted into law by the appropriation bills as of October 1, 2007, and includes multi-year projects budgetary carry-forwards from the prior fiscal year. On October 1, 2007, the Governor signed a 30-day continuation budget to allow the Legislature more time to pass individual budgets for fiscal year 2008. As a result, the General Fund original budget was only \$2.5 billion. Later in the fiscal year, the Legislature passed full budgets for each State agency and department.

The budgetary fund balance represents total fund balance, net of reserves for noncurrent assets and prior year encumbrances. Reserves for noncurrent assets do not represent current financial resources available for appropriation and are removed for budgetary purposes. Prior year encumbrances are considered uses of spending authority in the year the State incurs an obligation and are also removed.

Generally Accepted Accounting Principles (GAAP) require that the final legal budget be reflected in the “final budget” column, therefore updated revenue estimates available for appropriations as of November 30, rather than the amounts shown in the original budget, are reported. The November 30 date is used because P.A. 431 of 1984, as amended, permits budget adjustments by the Legislature through 60 days after year-end.

The final appropriations budget represents original and supplemental appropriations, carry-forwards, carry-backs (i.e., current year appropriations for prior year overdrafts), approved transfers, executive order reductions, and timing differences. Expenditures, transfers out, other financing uses, and encumbrances are combined and classified by department rather than being reported by character and function as shown in the GAAP statements. This departmental classification is used to better reflect organizational responsibility and to be more consistent with the budget process. Appropriations include interagency expenditure reimbursement, in which one agency provides funding to another agency within the same fund. The final budget and actual amounts are adjusted to eliminate the duplication.

The timing differences result from unspent authorizations for multi-year projects, such as capital outlay and work projects, and from restricted revenues that had not been appropriated for expenditure in the current year. Such authorization balances remaining at year-end are removed from the final budget column to provide an “annualized” budget.

Positive “variances” reflect restricted revenues that were appropriated and available for expenditure in the current year and unused general purpose spending authority (lapses); negative “variances” reflect budgetary overdrafts. If both positive and negative variances exist for a particular line, the amount shown is the net variance.

Statutory/Budgetary Reconciliation

The statutory/budgetary basis presentation differs from GAAP in ways that do not affect ending fund balance.

For budgetary reporting purposes, expenditures and transfers out in the “Actual” column include recorded encumbrances, because they are considered uses of spending authority in the year the State incurs an obligation. Therefore, the “Original” and “Final Budget” columns do not include encumbrance authorization balances carried over from the prior fiscal year. In the GAAP basis statements, expenditures do not include encumbrances. The effect of this difference is reflected as a reconciling item on the Budgetary Comparison Schedule for the major funds and the Combining Schedule of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual for the non-major special revenue funds and permanent funds.

For budgetary purposes, capitalizable lease expenditures are recognized when payments are due, rather than upon lease inception as required by GAAP. This difference does not affect fund balance because the “other financing sources” recorded under GAAP at lease inception are not recorded on the statutory/budgetary basis.

Statewide Authorization Dispositions

Subsequent to the release of this report, the State publishes “Statewide Authorization Dispositions” to demonstrate its compliance with the legal level of budgetary control. The report includes line-item appropriation details for the General Fund and budgeted operating funds, and is available by contacting the Office of Financial Management at (517) 373-3029.
